Trip overview

Discover what it's like to live like a local on our Working Holiday in Canada trip. Travel Canada's playground packed full of outdoor adventure and have the security of a local job to fund your trip. Picture your summers filled with paddling on emerald blue waters and your winters atop snowcapped peaks, sipping boozy hot chocolates and skiing on the freshest powder.

We offer the complete package and, most importantly, score you job interviews with awesome local businesses so you can stay longer and fund all your Canadian adventures! Our in-country team will help get you set up with all the essentials you need to kickstart this new exciting adventure, including working holiday visa application advice, transfers & accommodation, local experiences, a Canadian local bank account & mobile number, and so much more.

We know that one of the elements of a successful working holiday is to find local, seasonal employment to use as a means to fund your travels around the country. We also know that only certain businesses and industries will even consider hiring a traveller. We develop and maintain partnerships with hundreds of local businesses that do hire travellers, so you can save yourself time, money and stress with our Guaranteed Interview Before Arrival* and Unlimited Extra Interviews* to make your working holiday the best experience it can be.

Completely immerse yourself in a new culture, meet lifelong friends and, best of all, break away from your usual routine back home. With the freedom to travel as far and wide as you want between jobs, this trip is perfect for those who want to be more than an average tourist and adventure for longer.
